## SUMMARY

Software Engineer with 2 years of expertise in Java, Spring Boot, REST API development, JavaScript, React JS and MySQL. Experienced in all stages of the development cycle for dynamic projects. Proficient in Object-Oriented Programming, Data Structures, and Algorithms. Quick to adapt to new technology and duties. Reliable and organized team player with excellent communication skills. Seeking opportunities to leverage my skills in a challenging environment.

## WORK EXPERIENCE

**Software Engineer, Magicbricks Realty Services Ltd**

**July 2022 - Present**

- **Homeloans CRM**

- Integrated third-party Bank API, resulting in a 40% increase in direct home loan leads to banks.
- Developed the ‘Bank Partnership’ module to streamline adding and updating partnerships between banks and Magicbricks, improving operational efficiency.
- Enhanced the platform with new lead stages like Encashment, Invoicing, and Collection improving faster Activity processes.
- Collaborated with the Experian team to develop registration and OTP verification pages, enhancing the user experience for displaying credit reports and increasing leads by 25%.
- Implemented a communication strategy with promotional, transactional, and event emails and WhatsApp messages using Kafka to engage users and improve loyalty.

- **HomeLoan App**

- Collaborated with Android and iOS teams to develop the HomeLoan App and customer dashboard, simplifying the application process.
- Built APIs for FOS registration, dashboard, lead tracking, and push to bank, streamlining data exchange and workflow.

- **BRE for Developers**

- Developed the user registration module using React JS, improving user onboarding.
- Created the lead registration module, bank recommendation page, and REST APIs using Spring Boot, enhancing lead quality and conversion rates.
